

U.S. ACCESS TO ASIAN CLINICAL TRIALS

The Best of Both Worlds for U.S. Pharmaceutical Companies.

Now your U.S.-based pharmaceutical company can enjoy an ideal combination of Asian-based clinical trials and U.S.-based data management. Introducing the Asian Clinical Trial (ACT) program from SelecTrials

The Ease and Low Cost of Asian Trials.

Headquartered in Austin, Texas, SelecTrials is the contract research arm of Asia's largest private health care provider.

With offices in Singapore, Beijing, Shanghai, Manila, Bangkok, Penang, and Calcutta, our network operates 70 hospital sites for conducting high-quality clinical trials throughout the Asia-Pacific region, including Australia and New Zealand.

Conducting trials in Asia offers you many advantages, including lower trial cost per patient compared to the U.S. and Europe, wider coverage of ethnic populations, access to an extensive patient and knowledgeable investigator pool, and above all, the ability to focus on therapies for local diseases.

Plus, SelecTrials' access to a large population of subjects through a well-established recruiting infrastructure can help you complete your trial more quickly and cost-efficiently.

The Quality and Security of Real-Time, Web-Based Data Managed on U.S. Servers.

SelecTrials, Inc. is a leading innovator in online clinical trial coordination and data management. Designed in cooperation with leading sponsors and physicians, our CT Series™ solution has fundamentally improved the process of clinical trial coordination and data management, making it:

- **Faster:** With the CT Series, your clinical trial can be launched in a matter of days – not weeks or months. So new products can move through the approval process more rapidly.
- **Safer:** A management dashboard allows real-time monitoring of your trial.
- **Open:** The CT Series is database-agnostic, to work with Oracle, DB2, Oracle Clinical, and other solutions.
- **Versatile:** The CT Series handles trials of any size, and any phase from I to IV, including post-trial monitoring.

SEE IT
LIVE AT A
CONFERENCE
NEAR YOU.

For a comprehensive look at our exciting ACT program, join SelecTrials for a one-hour conference at a site near you. Or, schedule a presentation at your location.

Upcoming conference locations include:

PENNSYLVANIA

Four Seasons Hotel
One Logan Square
Philadelphia, PA 19103

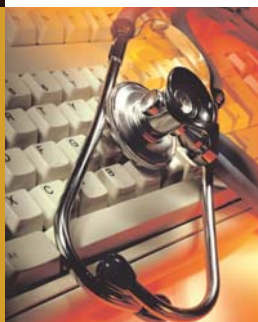

NEW JERSEY

Hilton Short Hills
41 John F. Kennedy Parkway
Short Hills, NJ 07078

CALIFORNIA

Four Seasons Hotel
300 South Doheny Drive
Los Angeles, CA 90048

For the complete schedule of conference dates, times, and locations – or to RSVP – please call Natalia at 1-972-287-8878, or visit www.selectrials.com.

YOUR GATEWAY TO THE NEW FRONTIER IN DRUG RESEARCH.

A Broad Network of Asia-Pacific Research Centers.

Our wide network of experienced and reputable clinical research centers includes ISO-certified hospitals, GLP-certified pre-clinical laboratories, and bio-informatics centers throughout the Asia-Pacific region. The unparalleled breadth and depth of this research network enables us to assist you in a timely and cost-efficient manner.

Privileged Access to Investigators and 1,000,000 Patients.

Through our network, we access a strong team of trained investigators with expertise in diverse clinical specialties ranging from preventive medicine to therapeutic healthcare management, with a particular orientation to clinical trial management.

In addition, our direct access to a pool of at least one million patients in the region ensures rapid patient recruitment for both local and global multi-center clinical trials.

Exceptional Responsiveness.

With our Web-based data collection and experienced research professionals, we ensure a speedy response to requests, rapid feasibility studies, and an expedited IEC approval process.

Plus, our team of multilingual clinical trial monitors and research coordinators promises productive, efficient, and consistent trial management and coordination throughout the Asia-Pacific region.

Advantages include:

- Extensive local and regional networking
- Familiarity with local regulatory affairs
- Understanding of local cultures and languages
- Phases I to IV
- Broad therapeutic range
- International project management
- Dedication to value

A Full-Service Resource.

As an Asian CRO, SelecTrials offers a full range of services, including:

- Feasibility studies
- IRB/EC submissions
- Clinical coordinators
- Clinical monitors
- Clinical project management
- Clinical data management
- eCRF services web based data collection
- Biostatistics
- Product registration in Asia
- Regulatory affairs
- Phase I studies
- Protocol and case record form development
- Independent ethics committee submission
- Site and Investigator identification
- Clinical trial project management and monitoring
- Clinical trial coordination
- Laboratory services
- Pre-clinical studies
- GCP training
- Auditing
- Medical writing
- Data management and data analysis
- Medical and pharmaceutical text translations
